

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Invesco Tactical Bond Fund (UK) (the "Fund")

### A fund of Invesco Fixed Interest Investment Series (the "Company")

### Z Accumulation share class (ISIN: GB00B8N45T82) (the "Share Class")

The Fund is managed by Invesco Fund Managers Limited, part of the Invesco Group.

#### Objectives and Investment Policy

- The objective of the Fund is to achieve income and capital growth over the medium to long term (3 to 5 years plus).
- The Fund invests through a flexible allocation to corporate and government debt securities (which may be investment grade, non-investment grade or have no credit rating) and cash.
- The Fund can potentially be fully invested in cash and near cash instruments depending on market conditions.
- The Fund may use derivatives (complex instruments) for investment purposes and to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Fund has an active investment approach based on fund manager judgement supported by macroeconomic and credit risk analysis, with an emphasis on valuation, and is not constrained by a benchmark.
- The reference to (UK) in the Fund's name only relates to the Fund's domicile and is unrelated to the Fund's objective and investment policy.
- You can buy, sell and switch shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.
- Recommendation: The Fund may not be appropriate if you plan to withdraw your money within 5 years.

#### Risk and Reward Profile

- The Share Class is in risk category 3 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

#### Other Risks

- The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and you may not get back the full amount invested. Over time, inflation may erode the value of investments.
- The securities that the Fund invests in may not always make interest and other payments nor is the solvency of the issuers guaranteed. Market conditions, such as a decrease in market liquidity for the securities in which the Fund invests, may mean that the Fund may not be able to sell those securities at their true value. These risks increase where the Fund invests in high yield or lower credit quality bonds.
- The Fund has the ability to make significant use of financial derivatives (complex instruments) which may result in the Fund being leveraged and can result in large fluctuations in the value of the Fund. Leverage on certain types of transactions including derivatives may impair the Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Fund not to achieve its intended objective. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Fund being exposed to a greater loss than the initial investment.
- The Fund may be exposed to counterparty risk should an entity with which the Fund does business become insolvent resulting in financial loss.
- As the Fund can rapidly change its holdings across the fixed income and debt spectrum and cash, this can increase its risk profile.
- The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.
- The Fund has the ability to invest more than 35% of the value in Government and public securities issued or guaranteed by a single body.
- The Fund's performance may be adversely affected by variations in interest rates.
- The Fund may invest in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events.
- A more detailed description of risk factors that apply to this Fund is set out in Section 29 of the Prospectus.
- As a result of COVID-19, markets have seen a noticeable increase in volatility as well as, in some cases, lower liquidity levels; this may continue and may increase these risks in the future.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
